This is a harmonised Book 2 across all corridors. For ease of understanding and to respect the particularities of some corridors, common procedures are always written at the beginning of a chapter. The particularities of Corridor Amber are placed under the common texts and marked as shown below.

The corridor specific parts are displayed in this frame.

#### 1 Introduction

Each Infrastructure Manager (IM) and – if applicable – Allocation Body (AB) of a corridor publishes its Network Statement (NS) for each timetable year on its website.

#### 2 Objective

The aim of CID Book 2 is to give easy access to all NSs of the IMs/ABs involved in the Corridor in line with Article 18 of the Regulation.

#### 3 NS excerpts

In order to facilitate the consultation of the NSs for the applicants, an overview of the NS per IM/AB involved in the Corridor and per chapter and sub-chapter is provided in a harmonised table used by all corridors. The structure of the table corresponds to the RNE Network Statement Common Structure. This table includes links that lead to the English versions of the IMs'/ABs' NSs or if not yet available temporarily to the national language version until the English version is available.

All the NSs and the NS excerpts published in this Book comprehend the main chapters 1-6, each containing a table with the following information:

- 1. General information
- 2. Access conditions
- 3. Infrastructure
- 4. Capacity allocation
- 5. Services
- 6. Charges

Information related to the structure of each NS is displayed according to the below legend:

#### Note (these notes are not to be published in the CID)

If the content exists but in a different chapter, then insert the number of the actual IM/AB NS chapter. In the special case of chapters 5.3.2.2, 5.4.4 and 5.5.6, which correspond to all other service categories that are not standard, include all the applicable chapter numbers. If an IM/ABs' NS includes additional chapters, it can add this information to the last line of the table in order to provide a complete overview of its NS.

'The last date when the IM/AB concerned updated the information
